Thank you Anusha for the e-mail introduction.

Hi Mitch,

My name is Lori Umana program coordinator overseeing the service maintenance of the BigBellys stationed at Little Tokyo BID.

I'm currently working on a report of trash collection for the bigbelly stations, and I understand that the system records in gallons. When I convert gallons into pounds it's a larger number then what the sanitation weight station records.

What do you recommend when it comes to reporting the trash collection of the bigbellys Gallons or Lbs? I would like to move forward with accurate information when it comes to reporting trash collection from the bigbellys rather than me converting gallons into weight and seeing a different number.

On a separate note, I ran a monthly trash collection report and the bigbelly at 3rd St. and Hewiit reported 0 gallons.

please advise.

Lorena Umana
